

You work at an international company. You have been asked to write an article about your views on developments in engineering and industry for the English section of your company's online magazine.

In your **article** you should:

- exemplify how engineering has improved people's lives
- speculate on future developments in your field of engineering
- give reasons why engineers have to keep learning new things

Give your article a **title**. Write around **250 words**.

**Notes (these will not be marked)**
